REVOLUTION

Lifting its Threatening Countenance in Spain.

A Significant Speech at a Banquet in Honor of Signor Zorilla.

MADRID, January 1.—The Republicans are becoming troublesome in the south of Spain. A band of revolutionists recently tried to destroy the railroad bridge in the Cordoba pass of the Sierra Morena Mountains, which separate La Mancha from Andalusia. Fortunately, the wreckers were discovered while they were at work, and five of them were arrested. They had cut through the underpinning of the bridge, and the next train which attempted to cross would have been wrecked if the plot had not been discovered. As it was, the damage was repaired just in time to save a heavily-laden passenger train from the North. The train contained a number of Southern members of the Cortes, who were returning from Madrid. It is supposed that the outrage was attempted with the object of killing those Senators and Deputies, most of whom are Royalists. At Ciudad Real, a few miles north of the scene of this outrage, a number of persons are said to be imprisoned on suspicion of conspiring to make a revolutionary rising. At a banquet given by Republicans in honor of Signor Zorilla the speakers representing the majority of those present urged a revolution against the Government. A minority, headed by Senor Salmeron, an eminent Republican leader, protested against violence, which they declared would be injurious to the party's interests. They strongly urged that help be sought from the Moderates.

THE DEAD ALIVE.

Extraordinary Case of Suspended Animation and Resuscitation.

GALENA, ILL., December 31.—John F. Munger, a well-known citizen of Plattville, Wis., has suffered greatly from rheumatism in the feet. Two days ago, with the hope of relieving the pain, he bathed his feet freely with tincture of aconite, and then thrust them into a pail of hot water. A tingling sensation followed, the pulse weakened, the skin became moist and clammy, and violent vomiting and retching ensued. A doctor was called, but on his arrival found Mr. Munger apparently dead. The heart seemed to have stopped beating, and the doctor, with other medical men, were summoned, declaring that Munger had died from aconite poisoning, having absorbed the drug through his feet. An undertaker set about preparing the body for burial when the doctor, as an experiment, injected with a hypodermic syringe a mixture of brandy and digitalis near the heart. In a few minutes the supposed dead man began to gasp, and there was a faint sound of beating over the heart. More hypodermics were given, the death pailor was succeeded by a reddish glow, the muscles relaxed, perspiration broke out, and Mr. Munger slowly returned to life. He is now entirely out of danger. The doctors consider his resuscitation most remarkable.

POISONOUS CAT BITES.

A Little Boy Dies from the Effects, and His Sister Not Expected to Live.

LOS ANGELES, N. Y., January 1.—About two years ago a little son and daughter of Wm. Shaw, of this place, were both bitten by a cat, while the animal was suffering from rabies. No attention was given the matter at the time, as the bites were not deemed dangerous. About two months ago the boy died, and the attending physician said that there were symptoms of poison. A few days ago the little girl was taken very ill with what is considered to be a severe case of hydrophobia. She makes similar motions as her deceased brother, and endeavors to bite her attendants, and it is now believed that the boy died of hydrophobia, from the effects of the cat's bite. The doctor gives his opinion that the girl will die, but if she should recover sufficiently the people here think that she would make a very interesting subject for Pasteur's treatment. There have been many cases of rabid cats, and many patients suffering from the bites of rabid cats.

DEADLY TRICHINOSIS.

A Whole Family in Illinois Carried Away Before Its Nature Was Discovered.

STRAVON, ILL., January 1.—Two weeks ago the family of August Feldt seemed to be suffering from some strange disease. The family had eaten heartily of pork, in which the doctor found unmistakable evidence of trichinosis. A week later one of the children died, and the following day another. The mother was then prostrated, and in a few days she died. During this time several doctors were called in, but could do nothing toward checking the disease. On Monday last a girl of twelve years died, and the father now has beyond all hope of recovery. Feldt purchased a quantity of pork and had it salted down. The children, he said, had been in the habit of going to the barrel and eating of the meat, and he had permitted them to do so, not realizing that they might be eating wrong. The house in which the Feldt family lives is wretchedly filthy, and has probably aided the trichinosis in its dreadful work.

Hydrophobia.

CARLE, ILL., December 31.—Joseph Bundschuh, living near Unity, in this county, was bitten on the leg by his little dog while he was helping it out of a steel trap. The wound healed quickly, and nothing was thought of it until Tuesday, when he was seized with hydrophobia, and last night he was not expected to live. It was a most desperate case from the start. Three physicians are in attendance upon him.

Destructive Fire at Detroit.

DETROIT, MICH., January 1.—A fire at Detroit destroyed the D. M. Ferry & Co.'s immense seed building, White's Grand Theatre, the Weston Block and other property. Ferry & Co. have been employing eight hundred people in their extensive seed business. The total loss is estimated at \$1,500,000, of which Ferry & Co. lose the greater part. Richard Fielan, fire captain, was killed.

Landlord Mellen in Mexico.

BOSTON, January 1.—Andrew L. Mellen, of Baltimore, for whose alleged implication in the Mellen-Coolidge murder conspiracy he is wanted by Boston officers, is in Yucatan, Mexico, and is doing business there with Jules A. Baudie, on what is known as the Hot Springs property. He can not be extradited.

MEXICAN UPRISING.

American Troops Ordered to the River, and Will Drive Out Disturbers at Mer.

LAREDO, TEX., December 30.—A Sergeant of the U. S. Army stationed at Ringgold Barracks, some sixty miles down the Rio Grande from this place, arrived here tonight and reports that a general uprising is taking place in all the small Mexican towns along the river between here and Brownsville. Major Kellogg, commanding the U. S. troops at the above mentioned post, and forces are now en route to Renna, a small city on the American side, where over three hundred men, mostly from Mexico, are in arms, and express their intentions of taking the city of Mer. They have an abundance of ammunition, and are of desperate and border-ruffian class. Major Kellogg proposes to disperse them, or force them to leave American territory, in order to prevent a breach of the neutrality laws between the two Republics. The movement originated among a few dissatisfied politicians who were defeated at the recent city elections in Mexico. Mexican troops are now being sent from Monterrey to Saltillo to reinforce those already stationed in the cities of the State of Tamaulipas, where the next outbreak is daily expected.

A REMARKABLE AFFAIR.

Violent Explosion of a Coffin After Having Been Closed Twelve Years—Its Occurrence Well Preserved.

GREENVILLE, S. C., December 30.—Details were received tonight of a most remarkable occurrence in Yorkville, this State. In 1873 James A. Watson, whose family resided in Yorkville, lost a child, aged four years, by death. At that time Watson was living in Baltimore, a teacher in the Bryant-Sadler Commercial College, and he could not conveniently leave his business to attend the funeral, and in his absence only a temporary burial was given the body, awaiting his return home to secure a permanent burial lot in the cemetery. Yesterday he went into the cemetery to remove his child's remains, and a metallic casket, was raised from the grave, and a natural desire to look upon the face of the child which died and was buried in the father's absence, prompted Mr. Watson to cut through the coffin, and he found the body of the child, which had been in the coffin for twelve years, and was in excellent preservation, as were also its burial clothes, and a wreath of flowers on its breast seemed to nearly as fresh as when buried, twelve and a half years ago.

COINS OF THE WORLD.

Reduced Valuations for Those Fixed a Year Ago.

WASHINGTON, December 30.—Dr. James P. Kimball, the Director of the Mint, has estimated the value of the standard coins of the various nations of the world to be proclaimed by the Secretary of the Treasury on the first of January, 1886. The value of the gold coin in circulation is fixed by comparing the amount of pure gold in such coins with the amount in the gold dollar of the United States. In countries having the double standard, the silver coins are given the same valuation as the gold coins of the same weight. The value of the silver coin of the United States, is fixed at the value of the pure silver in such coins taken at the mean price of silver in the London market for the last three months of the year. The mean price of the silver for the last three months, compared with its price for the corresponding period in 1884, declined from \$1.09 to \$1.08 per fine ounce, a reduction of over six cents. This gives a reduced valuation to the following coins from that proclaimed January 1, 1885, namely: Florins of Austria, from 39.3c to 37.1c; boliviano of Bolivia, from 79.5c to 75.1c; peso of Ecuador, from 79.5c to 75.1c; rupee of India, from 37.8c to 35.7c; yen of Japan, from 55.3c to 51c; dollar of Mexico, from 56.4c to 51.6c; sol of Peru, from 79.5c to 75.1c; rouble of Russia, from 65.6c to 61.1c; mahabukit of Tripoli, from 107.7c to 107.7c; peso of United States of Colombia, from 75.5c to 75.1c.

KILLED BY ELECTRICITY.

A Sudden and Terrible Fate Overtakes a Pair of Italian Organ Grinders.

NEW ORLEANS, December 30.—Vincent Mangella and Salvador Torcelli, Italian organ grinders, were entertaining a large crowd with their music at the corner of St. Louis and Charles street last night. While Torcelli was grinding out the music Mangella waited by his side. He was leaning against the pole of the Louisiana Electric Light at the corner when suddenly a flash of light seemed to descend the pole. He uttered a scream and fell forward. Torcelli caught his friend as he fell, and he too was knocked down. When the two men were picked up it was found that Mangella was dead, killed by a stroke of electricity, and that Torcelli's head was burned to a crisp by the same fluid. A strange feature of the case is that the Louisiana Electric Light has no power as yet, and it does not seem to be connected with the pole. It is thought the wire of another Electric Light Company must have crossed its lines. The electricity ran down the crane of the line on the hoisting wire, and being a damp night, the circuit was grounded. Mangella was unfortunately within the circuit and killed by the electricity, and Torcelli, when he came to rescue, was struck by the same force.

Cereal Statistics.

WASHINGTON, December 30.—The estimate of the Statistician of the Department of Agriculture for the principal cereal crops of the year are completed, and the aggregate bushels are as follows: Corn, 1,096,000,000; wheat, 357,000,000; oats, 629,000,000. The area of corn is 73,000,000 acres, of wheat 34,000,000, of oats 23,000,000. The value of corn averages nearly thirty-three cents per bushel, and makes an aggregate of \$359,000,000; wheat, 85,000,000 less than the value of the last crop. The decrease in the production of wheat is 30 per cent, and nearly 17 per cent in valuation, which is \$275,000,000. The valuation of oats is \$180,000,000. The reduction in wheat is mostly in the valleys of the Ohio and in California. The States of Ohio, Indiana, Illinois, Missouri and Kansas last year produced 17,000,000 bushels, this year 8,000,000, a reduction of 9,000,000 bushels. The production of all cereals is 5.53 bushels to each inhabitant. The aggregate volume is larger than any former year.

TWO EXPLOSIONS.

A Building Wrecked and Several Killed and Wounded—Ruins Caused by a Threshing Machine.

MOBILE, ALA., December 29.—This morning one of the boilers of the Gulf City Oil Works exploded with terrible force, blowing out the east and west walls of the building, and destroying the adjoining sheds. At the time of the explosion, I. S. Staunton, the fireman, and twenty-four colored hands were at work. A crowd soon collected and commenced extracting the wounded, whose cries could be heard from all parts of the debris. When the work was finished it was found that ten were killed or injured. The explosion is attributed to lack of water in the boiler. It occurred just after midnight. The whistle had just blown for lunch, or the casualties might have been greater.

LANCASTER, PA., December 29.—The boiler of a threshing machine in a barn near New Providence exploded this morning, killing two young men named Christian Hildebrand and Edward Halm. The former was hurled thirty feet away. Frank Edwards was seriously scalded. The barn was set on fire and consumed, with its contents. It contained twenty-five head of cattle, two mules, eight horses, three cows, ten hogs, 1,500 bushels of corn, 1,000 bushels of wheat, and a large amount of hay.

SMOKED OUT.

A Burglar Who Attempted to Enter a Store Through the Chimney—Rescued by a Windlass.

WILMINGTON, N. C., December 29.—Last night Leander Smith planned to rob the store of Robert Pugh & Co., about nine miles from here. He climbed to the roof of the building and divested himself of all his clothes and then tried to slip down the chimney. In doing so he loosened a brick, which fell down into Mr. Pugh's chamber underneath. Mrs. Pugh, alarmed, got up and saw the burglar. She called out, and he was rescued by a windlass. The burglar, who was named Leander Smith, was a white man, about thirty years of age, and was dressed in a blue coat, light-colored trousers, and a white shirt. He was carrying a bag of money and a small box. He was rescued by a windlass, and was taken to the police station. He is now in jail.

A MANIAC MOTHER.

An Attempt to Drown Two Children Narrowly Averted.

ST. LOUIS, MO., December 29.—About 5 o'clock last evening Mrs. Emma Tickens, residing on Camden street, attempted to throw her two children into a well which contained four feet of water. One of the children was a girl, six years old, and the other a boy, four years old. The screaming of the little ones attracted the attention of the neighbors, who rushed to the well in time to prevent the mother and girl from falling in. The little boy, however, slipped from his mother's grasp and dropped into the water. He was rescued by a ladder, and the mother came out of the insane asylum only a few weeks ago, and it was in a fit of insanity that she made the attempt to murder and suicide last evening. She will be sent back to the asylum today.

British Tariff Bill.

LONDON, December 29.—The Cabinet have reached a decision on the tariff question. A bill is to be prepared for introduction into Parliament, authorizing the imposition of duties on imports into Great Britain from countries imposing duties on imports from Great Britain. The measure will be founded on the report of Lord Aldrich's commission on trade, which finds, first, that English depression is due primarily to foreign competition; second, that the protective duties of the previously accepted doctrine of exceptional causes, such as temporary overstocking; third, that successful foreign competition results from a fiscal policy prohibitive of imports of English products; fourth, that the rise of rents and necessities is proportionately greater than that of wages, the standard wages being kept low by effects on British industry of foreign competition; fifth, that wide distress prevails in the manufacturing districts, resulting from dearth of employment and inadequate wages for those who are employed; sixth, that the protective duties will not be sanctioned by public opinion. A cautious rearrangement of the import tariff with the view of compelling foreign countries to concede favorable treatment to British products is demanded by a powerful and growing commercial element, by the middle classes generally, and more largely than is generally supposed by the masses.

Miles of Wreckage.

HALIFAX, N. S., December 29.—Telegrams from Digby report that the storm of Saturday and Sunday was the most severe ever known here. The beach for miles is covered with wreckage. At Annapolis the storm raged from Saturday morning until Sunday morning. The snow drifts were from eight to nine feet high. No damage to shipping at that port is reported. The Government breakwater at Cow Bay, C. B., was partially destroyed. At Gloucester, Mass., December 29.—The work of the northeast gales of Friday and Saturday have been very disastrous to the Gloucester fishing fleet, having destroyed five vessels—Adella Hartwell, Iker, Ivanhoe, Cleopatra and Sarah C. Pike. As thus far reported but eight lives have been lost, but it is feared that there have been other disasters and loss of life, and there is great anxiety manifested, and a dread of further bad news from the vessels on the banks exposed to the fury of the tempest.

Another Bond Call.

WASHINGTON, December 29.—The Secretary of the Treasury made a call for \$10,000,000 three per cent. bonds to-day, payable February 1. The call is significant because of the fact that it is the first call since September, 1884. It is the impression that the call has been forced by the attacks made upon the administration of the Treasury Department. This, numerically, is the one hundred and thirty-second call. The bonds called for are as follows: \$50—original numbers 399 to 503, both inclusive, and original numbers 1,314 to 1,867, both inclusive; \$10—original numbers 3,107 to 3,294, both inclusive, and original numbers 9,954 to 9,963, both inclusive; \$500—original numbers 1,070 to 1,090, both inclusive, and 4,048 to 4,200, both inclusive; \$1,000—original numbers 9,787 to 10,019, both inclusive, and 28,011 to 28,287, both inclusive; \$10,000—original numbers 1,070 to 1,090, both inclusive, and 17,401 to 18,564, both inclusive.

STEAMER SUNK.

A Disaster on the Chattahoochee River.

No Knowing How Many Lives Were Lost—Floating on Cotton Bales.

PORT GAINES, GA., January 3.—While the steamer W. D. Chipley was trying to make her landing at Stark's Clay, ten miles north of this place on the Chattahoochee River, last night between seven and eight o'clock, she struck on a protruding rock. A cry of alarm went up, and a moment later it was evident that the vessel was sinking. As she began to lurch the passengers, of whom there were about fifty on board, were overcome with terror, and jumped wildly into the water below. The night was dark, the rain pouring in torrents, and as the vessel sunk to the bottom the passengers clung to her timbers and wildly shrieked for help. While this state of affairs existed the Naiaid came up, and after desperate work succeeded, as her officers supposed, in rescuing those who were swept off by the current washing over the deck many of the affrighted passengers clinging to them as life-preservers and went floating down the river. The Naiaid, guided in the darkness by the calls of human voices, picked up the unfortunates as best it could. When daylight came, however, it was made apparent that there was much loss of life. Up until tonight six bodies have been reported found at various points down the river, and as the passenger list was lost it can not be ascertained how many more may be gone. Two of the bodies recovered are white persons, four colored, one of the latter being Sam Alexander, a member of the crew. The scenes are described as appalling. When daylight came, however, it was made apparent that there was much loss of life. Up until tonight six bodies have been reported found at various points down the river, and as the passenger list was lost it can not be ascertained how many more may be gone. Two of the bodies recovered are white persons, four colored, one of the latter being Sam Alexander, a member of the crew. The scenes are described as appalling. The bodies were found floating down the river. The Naiaid, guided in the darkness by the calls of human voices, picked up the unfortunates as best it could. THURSDAY, JANUARY 7, 1886.

A large number of the members of the Kentucky Legislature are unmarried.

Since the Legislature has elected its officers a death-like silence has pervaded the Capitol.

A. T. Cox, one of Maysville's wealthiest citizens, has suicided by drowning. Insanity.

The President of the Lancaster, Mass., National bank has disappeared. \$200,000 are also missing. Canada.

The Legislature stands eighty Democrats to twenty Republicans. What's the use of sending a Republican to the Legislature, anyhow?

One of the early indications that an attempt will be made to move the Capital is the complaint already made, that there is not room enough in the House for the one hundred members.

There will be a big fight in the Legislature over the Bullitt resolution, which looks to the suppression of legislation for private or local bills. If it is passed there will be an immense saving of time and money to the State.

The new year started off disastrously on the fire business. Early on the morning of January 1st D. M. Ferry's immense seed warehouse, in Detroit, was entirely consumed, involving a loss of over a million dollars.

Just ninety years ago the famous "Light Horse Harry" Lee retired from the office of Governor of Virginia, to which his nephew, Fitzhugh Lee succeeded on New Years day. Three Presidents, Thomas Jefferson, James Monroe, and John Tyler, graduated from this office to higher executive positions.

Mr. H. T. Littleton announces himself by card in the NEWS as a candidate for the office of Superintendent of Public Schools. Mr. Littleton has long been identified with the interests of education. He has been a highly successful teacher for many years, a first class examiner, and always a friend of education. If he is nominated we hope he will be elected, for this county certainly needs just such a man for this responsible office.

Health is impossible when the blood is impure, thick and sluggish, or when it is thin and impoverished. Such conditions give rise to boils, pimples, headaches, neuralgia, rheumatism, and other disorders. Ayer's Sarsaparilla makes the blood pure, rich, and vitalizing.

It is not best to pay attention to all the cries of fraud and mismanagement which are annually uttered against the management of our State financial affairs, because they often come from those who, if in office, would give as great, if not greater, cause for complaint. But it is well to give heed to some of the utterances which are now found in the newspapers of this as well as other States, regarding the financial condition of Kentucky. Last summer the cry of mismanagement of our public funds was the principal argument of the Republican editors and speakers, and it required very neat work on part of Democratic politicians to combat the bad effect of this weapon of our adversaries, and it was not always done successfully. It was said that to meet certain demands upon the treasury money was contrary to law, borrowed from funds which should have been kept sacred to the purposes for which they were originally devoted. Because of these illegal raids upon it the school fund has been impoverished, causing ill to numerous and too well known to be rehearsed. It is also needless to speak of other, if not entirely illegal, very un-called-for diversions of the public's moneys. These and other causes have brought about, if the Auditor's report means anything at all, a bankrupt treasury, if nothing worse. We have hanging over us the dread probability of an enormous public debt—something which could have been, with proper management, avoided. Kentucky has not been engaged in any enterprises of a public character which have called for a large expenditure of money, and a worse than depleted treasury can only be the result of either bad legislation or speculation. We can not believe it to be caused by the latter. If the former, it is in the power of our legislators to remedy the evil, and we say that one of the first steps to be taken in the way of reform is a rigid investigation of every department of the State government which handles a cent of the public funds.

BIG SANDY NEWS

LOUISA, KY.

Considerable snow fell Tuesday.

Do not forget the mite at Masonic Hall Friday night.

Miss Cora Abbott is teaching school in the Burns school house.

Prof. Littleton's school began Monday with a good attendance.

I will offer for sale my large iron safe very cheap. LEO FRANK.

The recent rise in the river and creeks let out a great deal of timber.

A heavy rain fell Sunday and Sunday night, and the rivers are high.

Snyder Brothers have bought the business house now occupied by Lewis Atkins.

Several timbermen of Catlettburg were in Louisa Monday, looking after a lawsuit.

Miss Lottie Ferguson entertained her many friends last Saturday evening, it being the sixteenth anniversary of her birth.

Revs. F. M. Hager and Lon See will begin a protracted meeting at Paintsville Ky., January 19th.

Travellers on the river road will do well to look out for a bottomless pit just below the second trestle.

Tuesday Mr. J. M. French, a member of the grand jury, was taken very sick and was discharged. His place was filled by J. H. O'Brien.

Snyder Bros. have just completed a cistern at the rear of their store for protection in case of fire. Several other merchants should do likewise.

Mr. C. C. Neal and family, of this county, will leave in a short time for Kansas. We regret to lose Mr. Neal as a citizen, but wish him success in the West.

The M. E. Church South is holding services this week—the week of prayer appointed by the Evangelical Alliance, and will probably protract the meeting.

The public school of this place closed last Thursday. Mr. T. L. Moore Principal and Miss Cora Abbott, Assistant. The school has given general satisfaction.

Lost.
I lost a double comb on Hackworth & Burns' corner Monday evening. I value it as a keepsake, and will be greatly obliged to the finder if he will return it to me.
G. W. WROTON.

Ayer's Cherry Pectoral is recommended by physicians of the greatest eminence on both sides of the Atlantic, as the most reliable remedy for Colds and Coughs, and all pulmonary disorders. It affords prompt relief in every case. No family should ever be without it.

R. F. Vinson, G. W. Wroton, M. D., and F. W. Weis, M. D., have been commissioned a Local Board of Health for Lawrence County. Their commission is from the State Board, and is for two years.

The local board held a meeting this week and elected Dr. Wroton chairman.

A CARD TO LADIES.
A lady who suffered for years, and who was treated by the most noted physicians in America without relief, was given a simple remedy by a Russian nurse which permanently restored her to health. To aid her, she now offers to send free the recipe, with full instructions for making the medicine your-self at home, without expense. If you are suffering with any form of female disease, do not throw away time and money on doctors' patent medicines, but procure a stamped envelope addressed to your-self, and receive a free cure. Address, MRS. CLARA B. WRIGHT, 78 E. Eagle Street, Buffalo, N. Y.

Apperson Lodge had a public installation of officers. Addresses were made by James A. Abbott and D. J. Burchett, and there was singing of Masonic odes. The officers for the year are: D. J. Burchett, W. M.; J. H. O'Brien, S. W.; J. W. Jones, J. W.; Alexander Lackey, Treas.; A. J. Conley, Sec'y; T. J. Snyder, S. D.; Jesse Shannon, J. D.; W. D. Roife and J. Q. Lackey, Stewards; N. C. Waldeck, Tiler.

AN END TO BONE SCRAPING.

Edward Shepherd, of Harrisburg Ill., says: Having received so much benefit from Electric Bitters, I feel it my duty to let suffering humanity to know it. Have had a running sore on my leg for eight years; my doctors told me I would have to have the bone scraped or leg amputated. I used instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica salve, and my leg is now sound and well.

Electric Bitters are sold at fifty cents a bottle, and Bucklen's Arnica Salve at 25 cents a box at R. F. Vinson's Drug Store.

PERSONAL MENTION.

GOOD RESULTS IN EVERY CASE.

D. A. Bradford, wholesale paper dealer of Chattanooga, Tenn., writes, that he was seriously afflicted with a severe cold that settled on his lungs; he tried many remedies without benefit. Being induced to try Dr. King's New Discovery for consumption, did so and was entirely cured by use of a few bottles. Since which time he has used it in his family for all Coughs and Colds with best results. This is the experience of thousands whose lives have been saved by this Wonderful Discovery.

Trial bottles free at R. F. Vinson's Drug Store.

I held an examination at the close of my school last month at Bradley's Chapel and wish to insert the grades in the columns of your paper. The general averages are as follows: Iona Bradley, 71; Laura Adams, 69; Rosa Rowe, 82; Matilda Thompson, 74; Emma Rowe, 64; John Bradley, 72; Allen Carter, 80; James Rice, 74; Dunlap Bradley, 65; Willie Short, 64; Mathias Rice, 64; James Bradley, 63; James McCormick, 55; James Casey, 64; William Bradley, 72.

Also, I will give some information of my school: number of pupils enrolled in Census Report, 64; number enrolled in school 50; average daily attendance, 18; percentage of attendance based on number enrolled in school, 78; percentage of attendance based on average attendance at school, 28.

I will now close, hoping to hear from some of the other teachers.

AYER'S SUGAR CATHARTIC PILLS COATED WITH SUGAR CURE

Headache, Nausea, Dizziness, and Drowsiness. They stimulate the Stomach, Liver, and Bowels, to healthy action, assist digestion, and increase the appetite. They combine cathartic, diuretic, and tonic properties of the greatest value, and are a purely vegetable compound, and may be taken with perfect safety, either by children or adults. E. L. Thomas, Framingham, Mass., writes: "For a number of years I was subject to violent Headaches, arising from a disordered condition of the stomach and bowels. About a year ago I commenced the use of Ayer's Pills, and have not had a headache since." W. P. Hannah, Gormley P. O., York Co., Ont., writes: "I have used Ayer's Pills for the last thirty years, and can safely say that I have never found their equal as a cathartic medicine. I am never without them in my house." C. D. Moore, Elgin, Ill., writes: "Indigestion, Headache, and Loss of Appetite, had so weakened and debilitated my system, that I was obliged to give up work. After being under the doctor's care for two weeks, without getting any relief, I began taking Ayer's Pills. My appetite and strength returned, and I was soon enabled to resume my work, in perfect health."

Happiness

results from that true contentment which indicates perfect health of body and mind. You may possess it, if you will purify and invigorate your blood with Ayer's Sarsaparilla. E. M. Howard, Newport, N. H., writes: "I suffered for years with Scrofulous humors. After using two bottles of Ayer's Sarsaparilla, I

Found

great relief. It has entirely restored me to health." James French, Atchison, Kans., writes: "To all persons suffering from Liver Complaint, I would strongly recommend Ayer's Sarsaparilla. I was afflicted with a disease of the liver for nearly two years; when a friend advised me to take this medicine. It gave prompt relief, and has cured me." Mrs. H. M. Kidder, 41 Dwight St., Boston, Mass., writes: "For several years I have used Ayer's Sarsaparilla in my family. I never feel safe, even

At Home

without it. As a liver medicine and general purifier of the blood, it has no equal." Mrs. A. B. Allen, Winterdock, Va., writes: "My youngest child, two years of age, was taken with Bowel Complaint, which we could not cure. We tried many remedies, but he continued to grow worse, and finally became so reduced in flesh that we could only move him upon a pillow. It was suggested by one of the doctors that Scrofula might be the cause of the trouble. We procured a bottle of

AYER'S

Sarsaparilla

and commenced giving it to him. It surely worked wonders, for, in a short time, he was completely cured."
